

Winter soft wheat

CAMPESINO

Without any doubt, a record wheat!

CAMPESINO

CAMPESINO is a winter wheat with whom reach **greatest yieldings in early sowings** in high potential fresh or irrigated lands. CAMPESINO has been the most productive variety in the official trials in France in 2020.

CAMPESINO stands out for it's **healthy and ear fertility**. Very good feature versus foot rot (carries the gene Pch1).

CAMPESINO, recommended in "WHEAT AFTER WHEAT" sowings.

CULTIVATION AREA

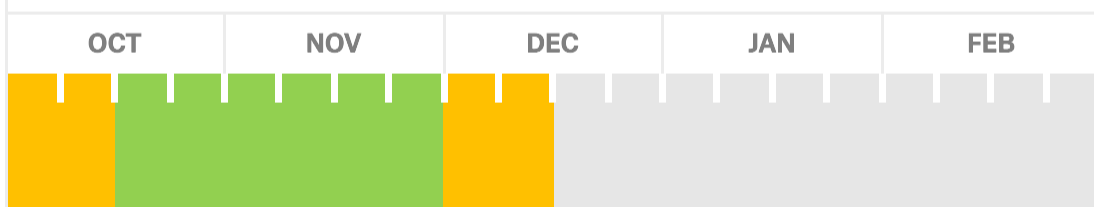

EAR

Awnless

Planting time

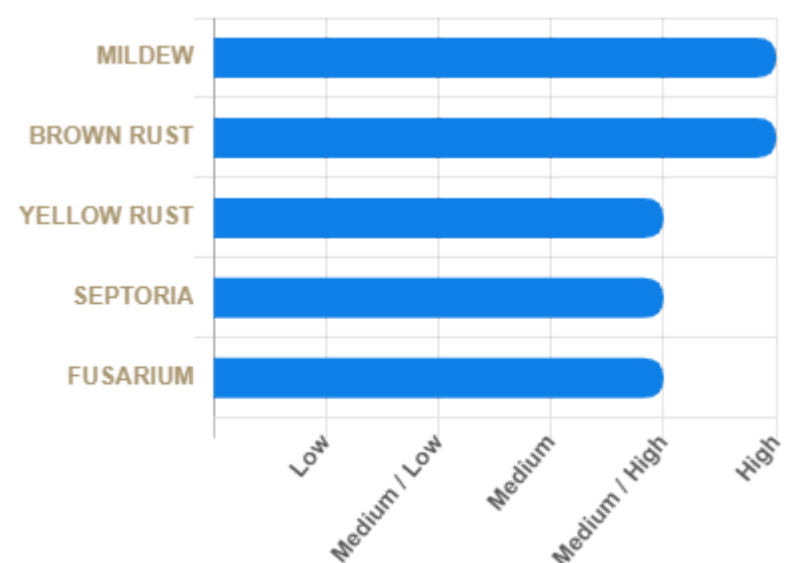

Sowing Density

220 to 280 kg/ha

AGRONOMIC CHARACTERISTICS

CYCLE	Winter
PRECOCITY	Medium
CHLORTOLURON	Sensible
RIPENING	Medium / High
QUALITY	Bread Wheat

DISEASE RESISTANCE
