# MERCURIUS

Veni, vidi, vici

## MERCURIUS

MERCURIUS is synonymous of high yields in spring wheat.

MERCURIUS was registered in 2019 with a production of 110% over control varieties, beating to them in each one of the several trials done in the agronomic validation phase.

**MERCURIUS, the most productive spring wheat variety in GENVCE 2020 and GENVCE 2021.**

(\*): GENVCE is the Spanish association that manage the official trials for new cereal varieties
