

Winter soft wheat

# NEMO

Great productivity

## NEMO

NEMO is a winter wheat, awned and semi-early, with a **huge productive potential** and very good bread quality.

NEMO was the most productive variety in the Spanish official trials, in 2018. One of the strongest points of NEMO is their **short period between flowering and ripening**.

**NEMO combines high productivity, high specific weight and resistance to lodging.**

### CULTIVATION AREA

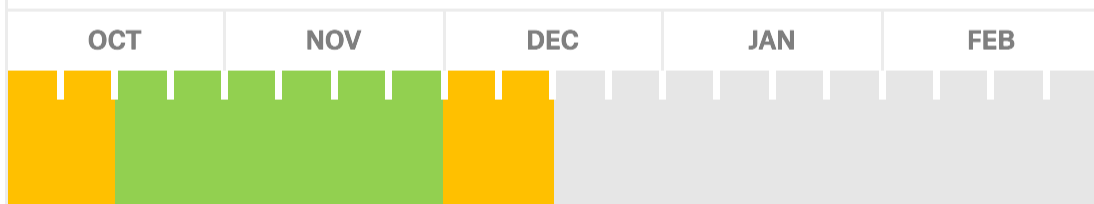

### EAR

Awned

### Planting time

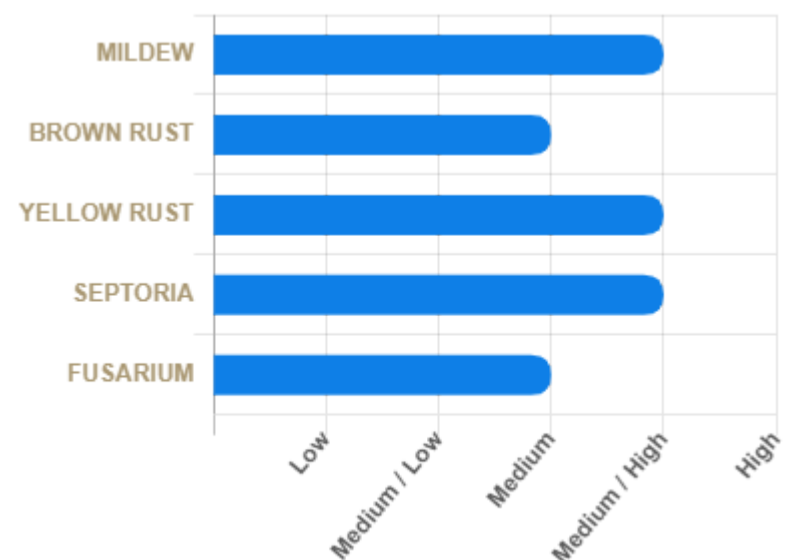

### Sowing Density

200 a 280 kg/ha

## AGRONOMIC CHARACTERISTICS

<b>CYCLE</b>	Winter
<b>PRECOCITY</b>	Medium
<b>CHLORTOLURON</b>	Tolerant
<b>RIPENING</b>	Short
<b>QUALITY</b>	Bread Wheat

## DISEASE RESISTANCE
