

PIXEL

PIXEL is a **6 row winter barley**, early to earing medium-sized and with a good resistance versus lodging and diseases.

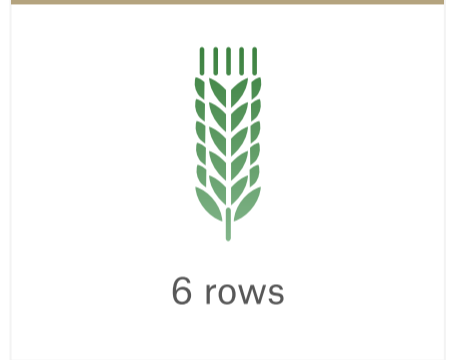

PIXEL, due to its **productivity** and **quality grain**, has been selected as one of the preferred varieties by the French Malting and Beer Committee (CBMO).

PIXEL has been the most productive winter barley in cold areas in the official Spanish trials GENVCE 2021.

GROWING AREA

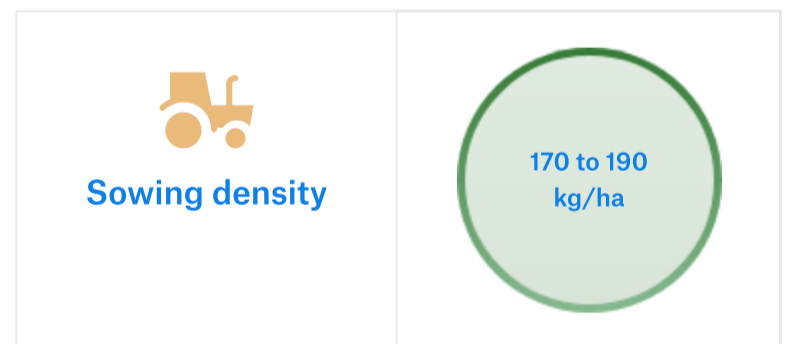

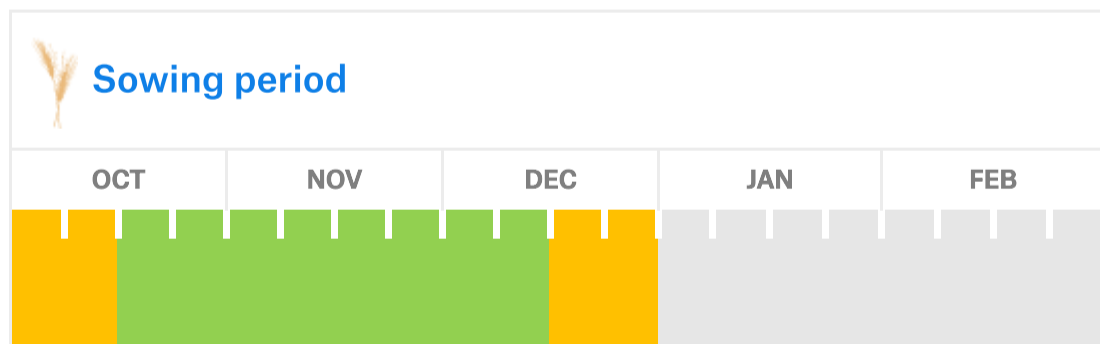

EAR

PIXEL, new genetics in 6row barleys.

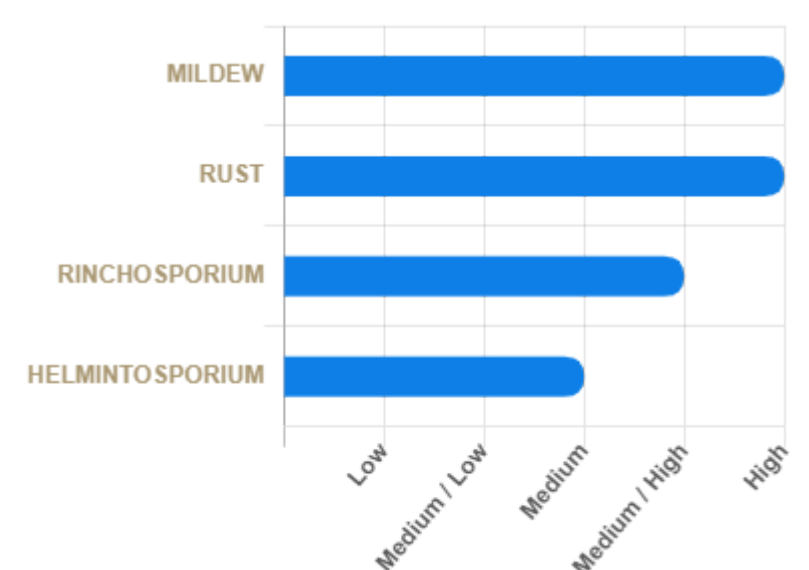

Suitable to high potential land.

AGRONOMIC FEATURES

CYCLE	Winter
EARLINESS	Early
STRAW HEIGHT	Medium
QUALITY	Feed

DISEASES RESISTANCE
