

Winter barley

PIXEL

The hardiness of a 6 rows barley!

PIXEL

PIXEL is a **6 row winter barley**, early to earing medium-sized and with a good resistance versus lodging and diseases.

PIXEL, due to its **productivity** and **quality grain**, has been selected as one of the preferred varieties by the French Malting and Beer Committee (CBMO).

PIXEL has been the most productive winter barley in cold areas in the official Spanish trials GENVCE 2021.

PIXEL, new genetics in 6 rows barleys.

Suitable to high potential land.

CULTIVATION AREA

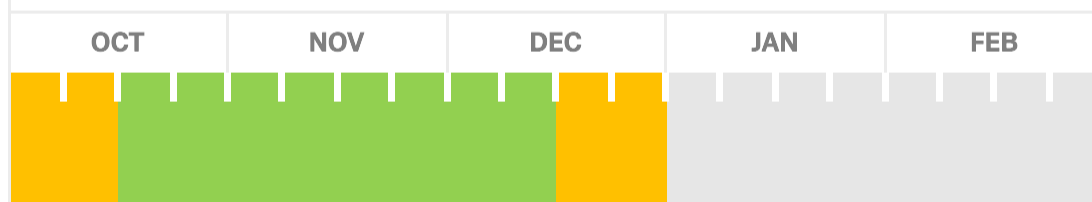

EAR

6 rows

Planting time

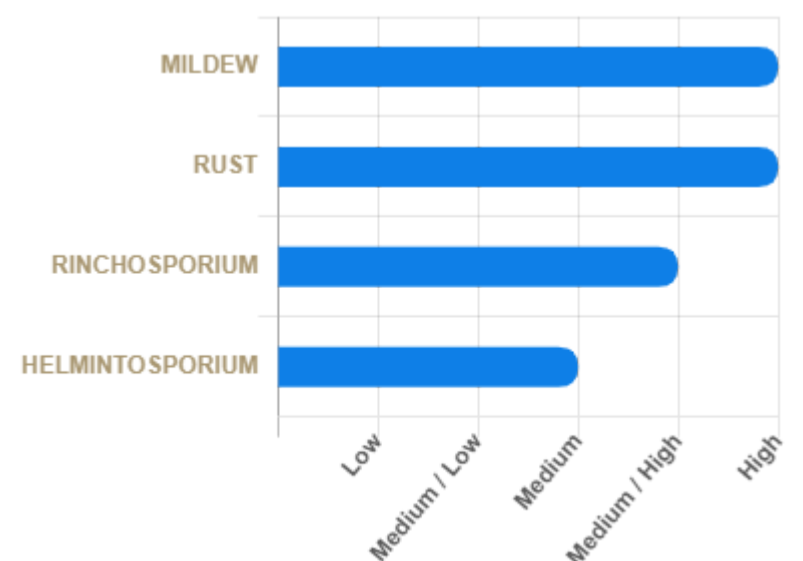

Sowing Density

170 to 220 kg/ha

AGRONOMIC CHARACTERISTICS

CYCLE	Winter
PRECOCITY	Early
RIPENING	Medium
QUALITY	Feed

DISEASE RESISTANCE
