

Winter pea

# FRESNEL

A winner pea

## FRESNEL

FRESNEL is a winter protein pea, that has **high productivity** and a very **good height** at harvest.

FRESNEL highlights for its resistance to cold, few sensibility to ferric clorosis and **excellent yielding**.

### FRESNEL, the first of a new generation of pea:

- For its productivity, height, healthy and col tolerance.

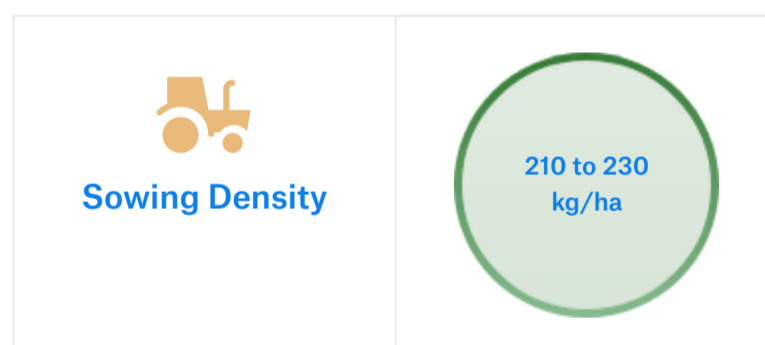

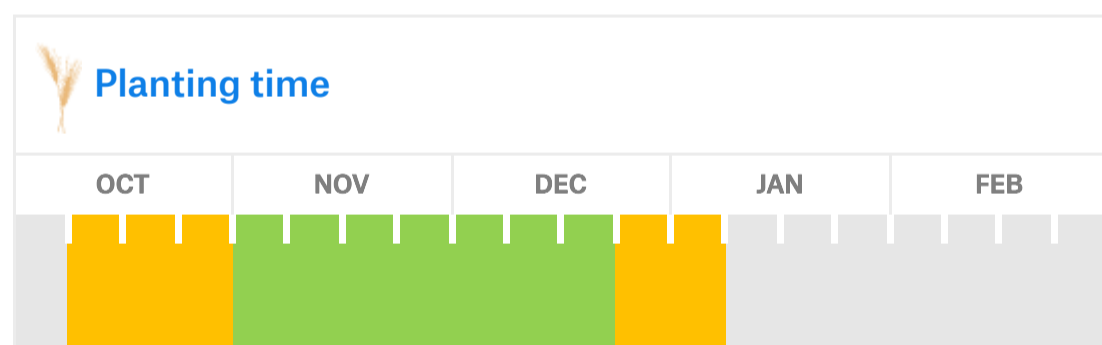

### CULTIVATION AREA

### COLD RESISTANCE

High

## AGRONOMIC CHARACTERISTICS

<b>CYCLE</b>	Winter
<b>PRECOCITY</b>	Semi-early
<b>TALLA A MADURACIÓN</b>	High (40/45 cm)
<b>QUALITY</b>	Feed
<b>GRAIN COLOR</b>	Yellow
<b>PMG (THOUSAND SEED WEIGHT)</b>	From 200 to 220 gr
<b>PROTEIN CONTENT</b>	Good
